

SOFTWARE SOLUTION FOR SHIP MANAGEMENT AND CREW

WE ACCELERATE PROCESSES AND IMPROVE QUALITY OF WORK

What WAYL will do for your business:

-  SAFE YOUR TIME
-  SAFE YOUR MONEY
-  STOP YOUR STRESS

WAYL

YOU STILL HAVE **PAPER-BASED WORKFLOW?**

In spite of the fact that it's the 21st century, and the time of paper documents is coming to an end, many companies, including the large ones, are slow to transfer their document flow into electronic form and archives into clouds.

WHAT ARE THE OBSTACLES?

FEAR OF NOVELTY?
LACK OF EQUIPMENT?
MENTALITY?

Or maybe it's just the lack of ready solutions for a specific industry?

SOLUTION

WAYL SOFTWARE

This is the unique opportunities for shipping companies and their end customers

This is a digital format instead of tons of paper, simple administration and formatting of reports

This is transparent business processes and effectiveness of management control

This is a high level of confidentiality, restricted access to documentation

This is a breakthrough in the work of shipping companies, unlimited opportunities for expansion of functionality

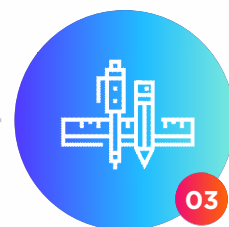

WHAT TASKS DOES WAYL SOLVE

Document
digitalization and
unification

Data
storage and
archiving

Cost cutting
for stationery
purchase

Expansion of
vessel control
possibilities

Organization of
personnel
document flow

Optimization of work
with suppliers,
including holding
internal competitions

Reunification of
administrative and technical
parts of business

Efficiency in
work with
customers

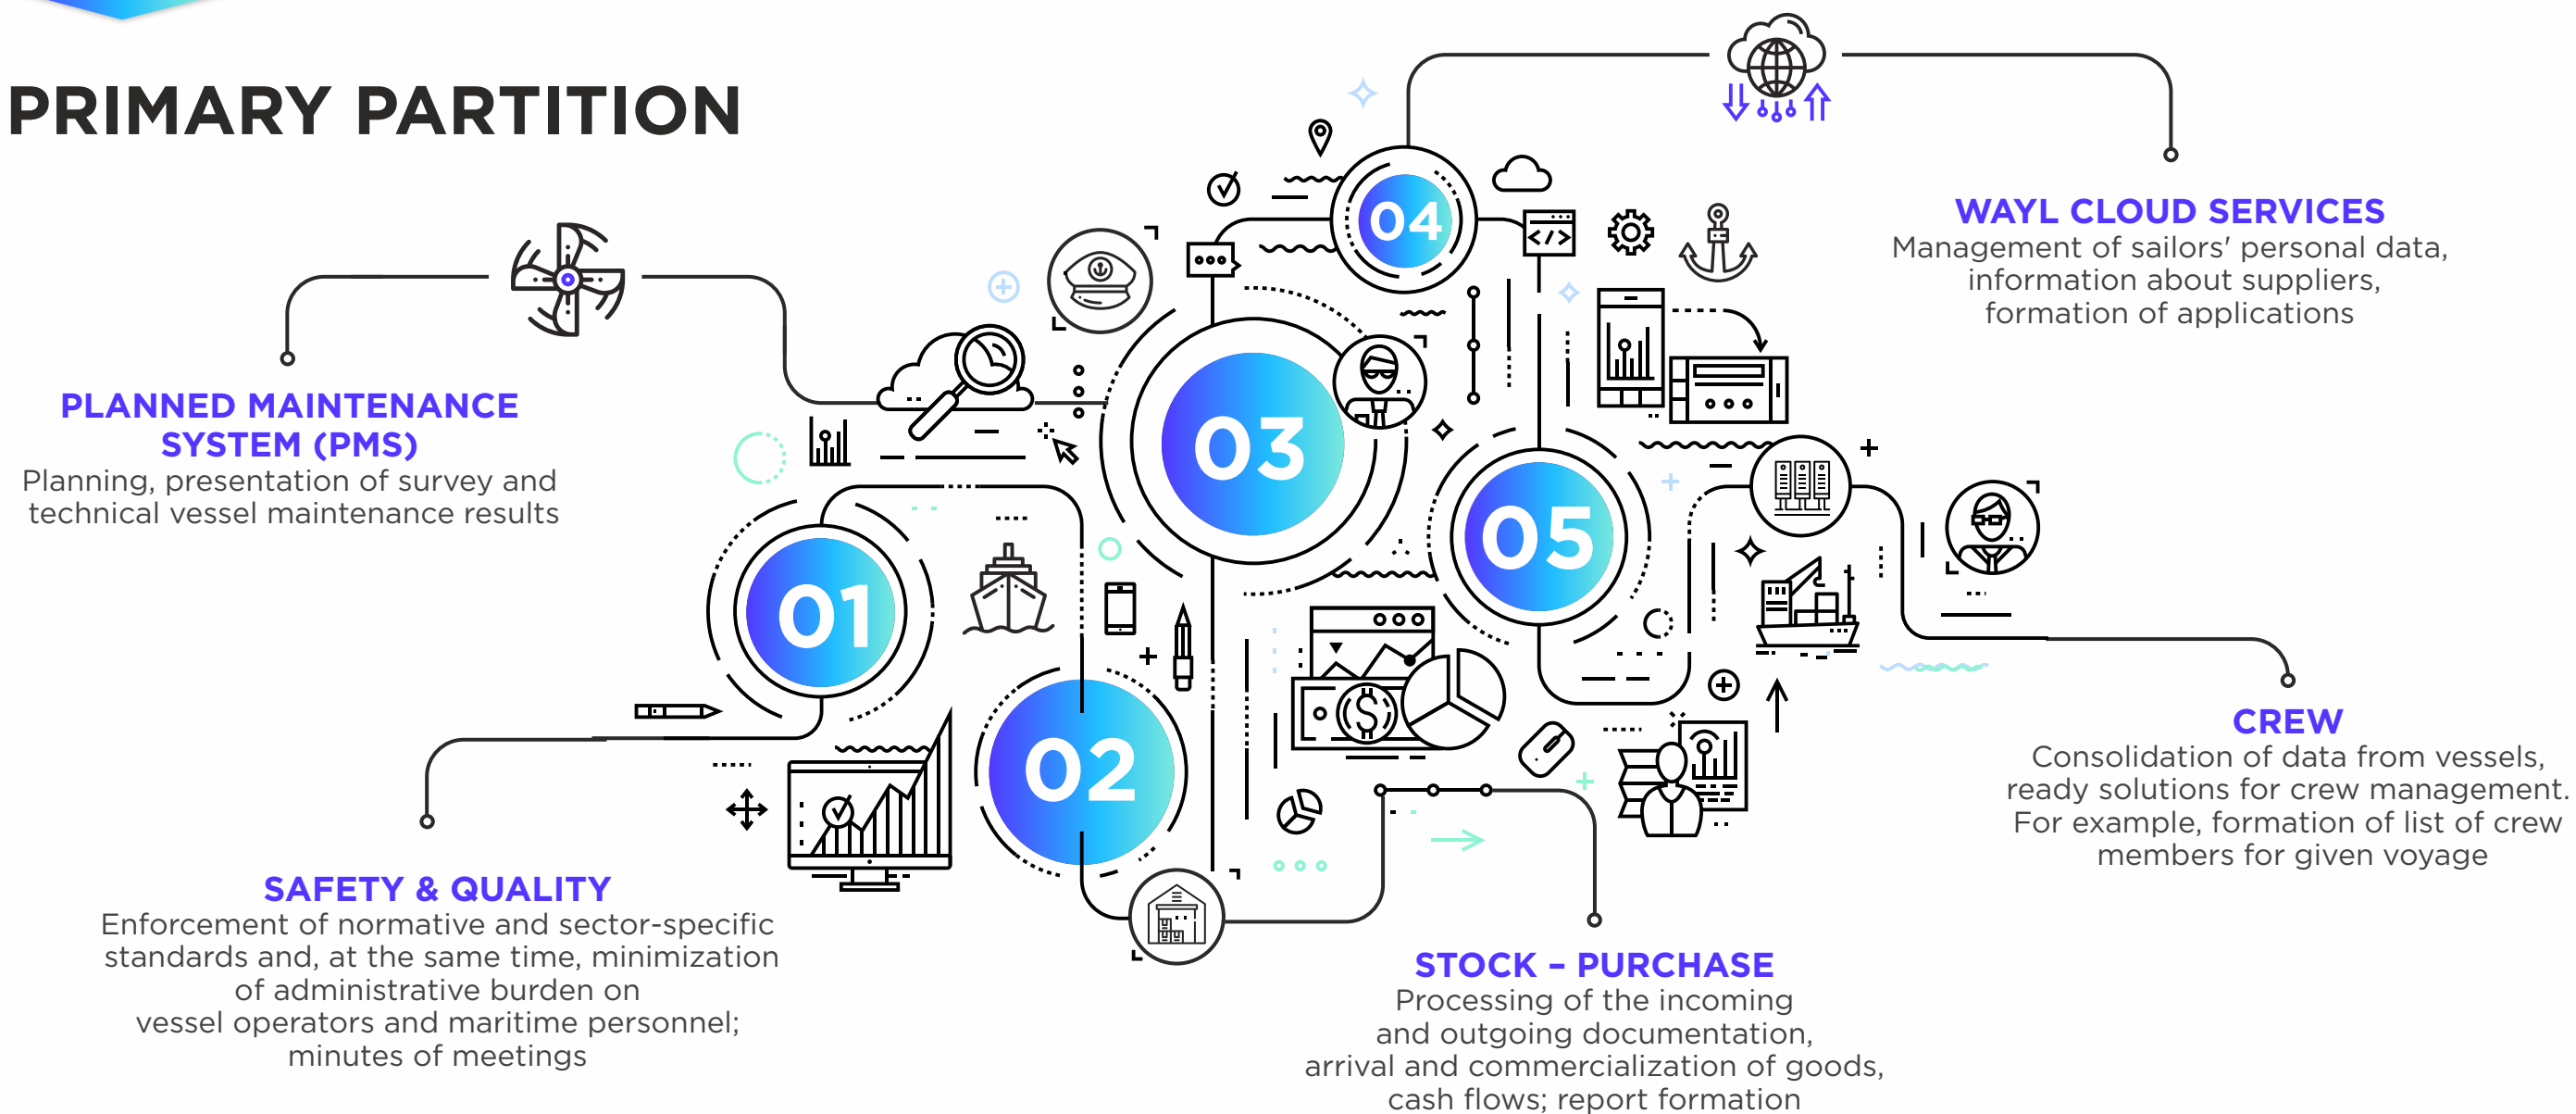

Continuous
system work
(offline mode)

System division,
modality
(Flexible pricing)

PRIMARY PARTITION

ADVANTAGES FOR SHIPPING COMPANY

CONSIDERABLE REDUCTION OF TIME OF DOCUMENT EXCHANGE
electronic document is transferred instantly

FAST INSERTION
of incoming documents into
the information system

AUTOMATIC CREATION
of reports and lists

**MINIMIZATION OF
NUMBER OF ERRORS,**
caused by human factor

**CONSIDERABLE
ECONOMY**
on expendables,
post and courier expenses

NO NEED
of paper archive,
documents do not get lost

MORE OPPORTUNITY
for expansion of functionality
and data base

TECHNICAL SUPPORT

AVAILABLE 24/7

A young dynamic software development company which can adapt a product for the need of a client

We are creative

·We render services in system installation and configuration, implementation and staff training

OUR AIM:

TO HELP SHIPPING COMPANIES AND CREW
IN THEIR EVERYDAY TASKS

We create projects for industrial, regional and corporate documentation management systems

We develop and supply electronic document circulation systems

We develop sensors-detectors with access to the software

1.4.1 Manning : 0

File Edit View Insert Format Tools Table Help

Paragraph

1.4.1 MANNING PROCEDURE

General

The Company employs sea-staff directly or indirectly and ensure that vessels are always appropriately manned.

Crew Manager (reeving) is responsible for general administration and maintaining agreed standards related to manning the vessels.

Company Requirements

The Company issues and advises Crew Manager with clear instructions and detailed requirements for sea-staff, in particular:

Vacancy requirements;

Job descriptions;

Minimum qualification and experience requirements;

Assessment of professional qualification and experience;

Contribution into Safety Management System.

Crew Manager shall maintain checking of the above by appropriate check lists and application forms submitted by the seafarers or their crew agents prior to assignment.

Medical Fitness

The Crew Manager is responsible for ensuring that every seafarer assigned to a vessel holds Medical Fitness Certificate valid for term of contract.

Alcohol and Drugs Tests.

The Company is committed to maintaining a safe working environment and ensuring the safe operation of ships. Realizing the danger of person on board who is intoxicated by the consumption of alcohol and/or drugs, the Company developed policy and working instruction aimed at preventing drugs and alcohol abuse in accordance to Chapters 3.1.2.2 and 3.2.3

Safe Manning Level

Minimal crew complement capable to ensure safety of the vessel and environment protection is defined by the Minimum Safe Manning Certificate issued by the Flag State.

The Crew Manager and the Master of the vessel must ensure that requirements of this certificate and company instructions related to number and qualification of seafarers are always met within operational period.

Training of Seagoing Personnel

The Company makes all efforts to ensure that seafarers personnel is duly instructed and trained, and that new or newly transferred personnel

WE ACCELERATE PROCESSES AND IMPROVE QUALITY OF WORK

PROJECT PRESENTATION

The image shows the Wayl logo, which consists of a stylized blue lightning bolt icon followed by the word "wayl" in a lowercase, sans-serif font. Below the logo, the text "Wayl Cloud services" is displayed. Underneath this, there is a login form with a light gray header labeled "Login". The form contains two input fields: the first is labeled "Username/Email" with a user icon, and the second is labeled "Password" with a lock icon. A blue "LOG IN" button is positioned at the bottom right of the form.
